- ii. **Report on Trustees' meeting.** David Mattingley reported there were outstanding grants to **Ecchinswell, Northington and Silchester**. A new grant application had been received from **St Mary the Virgin, Brading** where the bells were being tuned and augmented to ten, with a new frame, fittings, headstocks, and rebuilt wheels, at a cost including local labour of £105,000 plus VAT and the Trustees recommended a grant of £13,000. The Hon. Gen Treasurer seconded and this was agreed. David said a further grant application has been received from **Wolverton** and would be considered at the next meeting of the Trustees.

9. General Data Protection Regulation

The Central Council Tower Stewardship Committee [2018 General Data Protection Regulation \(GDPR\) Interim Guidance Note](#) had been distributed. From 25th May 2018 explicit consent would be required from Guild and District Officers and Tower Secretaries for their contact details to be listed on the Guild website and in the Annual Report. After the Data Protection Act 1998 came into force on 1st March 2000 all Guild and District officers and Tower Secretaries whose contact details were printed in the Annual Report had to complete a permission form before their details could be published on the Guild website. The forms were originally looked after by the Public Relations Committee and subsequently by the Communications Committee, but no-one present knew when we stopped seeking permission to publish contact details on the website. Following discussion it was agreed that the Master, Vice-Master, Hon. Gen. Secretary and Hon. Gen. Treasurer would consider how the Guild would meet the requirements of the 2018 GDPR.

10. WW1 Project Feedback

Viv Nobbs read extracts from messages of support from Bishop Christopher of Portsmouth and Bishop Timothy of Winchester, and then read a paper (see [Appendix A](#)).

11. 2015 - 2018 Action Plan Review

Viv Nobbs had placed copies of a paper on members' chairs before the meeting (see [Appendix B](#)).

12. Proposal to earmark £2,000 for WW1 Centenary Commemoration Project

A paper from Viv Nobbs had been distributed. Several members questioned whether spending such a large amount (over a quarter of the Guild's monetary reserves) on two books was a good use of our resources. The Master said that major items of expenditure should be discussed at the AGM. Viv assured the meeting that she would take into account the opinions expressed. Following further discussion the Hon. Gen. Treasurer proposed and Allan Yalden seconded that expenditure of up to £1,000 should be included in the 2019 budget and this was agreed. The Isle of Wight District had donated the proceeds from raffles of £114 to the project.

WW1 Centenary Commemoration Project Update for E.C. 10 March '18

Our Guild project is ambitious, possibly unique, and it is unlikely even at this stage, that all questions can be answered. I'd be pleased to offer further information where possible later on. Meanwhile, an interim update for you all.

At the outset, so when we were including the project as a Future Event in the Action Plan for 2015 - 2018, we made a conscious decision to be as flexible and inclusive as possible. There were some very positive ideas including:

- honouring the victims of WW1 by offering our Guild's ringing skills as a sincere tribute to those killed as a result of the conflict, including our own members
- bringing members together in their ringing in a very significant and meaningful way
- creating an archive of the special ringing to be recorded in two books to be presented to Winchester and Portsmouth Cathedrals, potentially accessible to non-ringers for general interest and for family research
- members coming together to attend special services at the two Cathedrals where we would present the books.

The project offers great opportunities for every member to take part and towers to use their own initiative and ideas, and their own local church and community contacts, to achieve the results that they'd like. It raises the profile of ringing in a very positive way, including potential benefits in the area of recruitment.

Our first volunteer for the research element of the project, Rachel, now resident back in Australia was totally committed to it all and her magnificent offer of starting record-harvesting from 1914 was gratefully accepted. This enabled the project to develop into something quite spectacular and has offered so much extra value and appeal.

Currently we are a small project team of four but, as we are seeing the critical final year on the horizon, we will be seeking more volunteers very soon. The team of researchers, three currently, will strive to harvest as much material as possible but a major element of the more recent and future performances is likely to come direct from individual ringers and conductors. We very much appreciate this team effort.

The main thrust of the group's work so far has been the painstaking harvesting of performances that we hope to use in the printed volumes and archives - from Bell News, Ringing Worlds, Bell Board and from details submitted direct to us by members, and then compiling the initial computer records. To date we have in the region of 510 records. There is a possibility that these will be available on our website; this is work in progress. There have been further discussions with the printer.

Ringers have been doing us proud, as ringers do! We anticipate a steady flow of WW1 related performances over the next eight months with the majority in November, of course.

We are positively encouraging all towers right across the Guild to ensure that at least one special ringing performance from their church might be recorded in the archives and that all Guild members who fell in the conflict have had a special performance rung in their memory and honour.

We are delighted that so much special ringing has taken place to date and to witness significant interest and support from outside of our own ringing community.

The working group will soon be meeting again with the Principal Officers when all aspects of the project will be reviewed and discussed. This will include the likely final content and design of the printed volumes and the involvement of neighbouring associations previously in the Winchester Guild. It's always been acknowledged that the content of the archive and books will depend on what performance details are available to us. We hope to be able to include in the two printed books the majority of details of the performances harvested or submitted to us. Specific plans will be drawn up for a timetable of work to be

done right up to the two Cathedral Services in 2019. Consideration will be given to what extra, specific volunteer resources and fund-raising are needed and the appropriate arrangements put in place.

This Commemoration project offers us all an incredible opportunity to work together - individual ringers, towers, our churches and local communities - culminating in some significant and very special results.

Thank you. Viv Nobbs

APPENDIX B

Guild Action Plan Review March - 2018

An Action Plan can enable ideas to develop and provide continuity. It is anticipated that elements of a Guild plan, alongside a current picture of our funds, will be reviewed annually. It encourages further focus and accountability to members.

The review of the existing Action Plan for 2015-18 was presented to members at the 2017 A.G.M.

Weekly newsletters circulated to members, by email, at their request have been introduced recently and are proving to be both popular and effective.

Districts and many towers are using the website successfully for circulating news, including urgent notices.

The website continues to be a very effective window to the outside world.

Work on the proposed Members' Database has not started yet; this item will be reviewed in the light of the new legislation **THE 2018 GENERAL DATA PROTECTION REGULATION (GDPR)** coming into force on 25th May 2018.

Principal Officers recommend that the revised Action Plan for the future period is drawn up, presented to, and considered by, the Executive Committee and all Districts later in 2018 and 2019 with a view to a recommended plan being presented to the 2019 A.G.M.

This will afford all to have an opportunity to consider the revision or inclusion of a number of significant items such as the Training and Development Fund, Training of more Teachers, Young Ringers, Guild Administration, Education. Recruitment and Retention, Health and Safety and Safeguarding.
